December 9, 2016

Messrs. Roger A. Cooke, Kenneth Buck and Shawn Hagel  
Aerocraft Heat Treating  
15701 Minnesota Avenue  
Paramount, California 90723

To Whom It May Concern:

My name is Daryl Hofmeyer and I am the Mayor of the City of Paramount. I am writing to you on behalf of our residents and the men and women who work in the City. The reason for my letter is to ask for your complete, dedicated, and speedy cooperation in relation to the air quality issues that have been raised by the South Coast Air Quality Management District (SCAQMD).

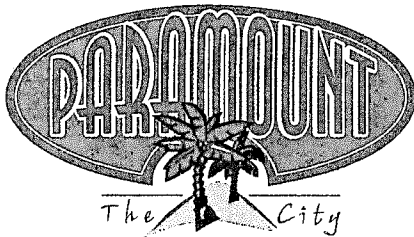

My purpose is not to rehash the issues, the testing results, or the investigation. The City has no legal authority or power to regulate anything related to air quality. We need to leave that, by law, to the SCAQMD.

What I am asking is that you work diligently and in good faith with the SCAQMD to resolve all of the questions that have arisen since your company was identified last week as a possible source of the high emission levels. Obviously, the news reports and town hall meetings that have resulted from the recent activity have caused great alarm in our community. We all want answers and we all want as quick a resolution as possible. We want to know that the air we breathe daily is safe and the businesses that operate in Paramount do so legally and with the best of intentions.

So, please, work collaboratively with the SCAQMD and any other agency that is involved in this situation. Show the people of Paramount that you have our best interests at heart.
